

Fantastic company outstanding products

The opportunity offered by Forever has changed Paul Scarlett's and Tricia Payne's Lives beyond belief

Paul & Tricia at Table Mountain - Cape Town South Africa

There is no better feeling than being in control of your own life and future and our network business has given us both. Just like millions of others in the UK we were concerned about our future, retirement and job security so the network industry looked like the only real option to create a residual income without huge capital costs, premises, staff and all the other headaches that traditional business brings.

We are Paul Scarlett and Tricia Payne and have been working with Forever for the past twelve years. During this time the opportunity offered has changed our lives beyond belief. It has taken us to places around the world we only dreamed about and given us the finances to create true wealth. We believe that our business offers anyone who has a desire to change their life the opportunity of a lifetime.

The greatest thing about the opportunity with Forever is that it offers anyone no matter what background people come from, that they can achieve their dreams with this programme. We have just returned from an all expenses paid trip to the USA and Hawaii where we met many other distributors from around the world. People who have changed their lives, single mums who struggled on benefits, busy working mums who wanted more for their children, young university students who saw the opportunity. Doctors, lawyers, truck drivers, people from every walk of life, the common link between them all was a desire to live a better life, have a bigger income and more time to enjoy life.

Why? you may ask, should you look at the Forever Opportunity. Well it's because of the stability of the company we work with. Forever is celebrating 30 years next year and has sales of over \$2 billion worldwide. Forever is cash rich and debt free. In the UK the company has been awarded the Investor in People award and are members of the DSA (Direct Selling Association) and are considered one of the better network companies operating in the world today. Now operating in over 125 countries it is a truly global opportunity for anyone seeking a true unlimited income.

A great opportunity is all very well, but without a great product range that really drives the company forward it would be just another network company.

Just think of the largest, fastest growing sector in the world today, Health, Nutrition, Diet and Skincare. This is because if you are like us, you want to be like 'Peter Pan' and most people over 45 yrs do too - also young people now care more about their health and looks.

If you link this with the fact that the product range we recommend to others can be used by Babies, Teenagers, Adults, Retired people, household pets, farm animals and even a Bengal Tiger with Arthritis!

The product range covers many areas in the market which includes **Aloe Vera drinks** – Medical trials have been run for IBS on these and has been called the Super Supplement by

Patrick Holford author of over 17 books on nutrition. **Skin protection** – Great Ormond Street Children's Hospital have used these products for skin disorders. **Skin and Beauty care range** – helping keep those wrinkles at bay and used by celebrities worldwide including secret agent 007

Pierce Brosnan. **Beehive products** – Royal Jelly, Propolis and Bee Pollen used worldwide by athletes for stamina and energy. **Animal Care** – the Aloe plant is on the Royal College of Veterinary Surgeons Coat of Arms and is used on domestic pets, farm yard animals, Horse yards and even the Monkeys at Jersey Zoo. **Vitamins and Weight Management** are also part of the product range. The products are truly universal and everyone on the planet is a potential customer.

Now link this with a plan that rewards everyone at every level then you have an almost perfect business. People join Forever just to earn an extra £50 a month and to access the product range for themselves and save 30% on the retail price. Those individuals that see the potential the company offer can go on to create a second income of £1,000 to £5,000+ per month. Distributors worldwide who have worked hard over several years are now earning from £10,000 to £50,000+ per month.

Forever also offer additional benefits such as a Car Incentive programme paying up to £525 month, a chance to enter the company profit share programme that paid out a top cheque of over £400,000 to one individual in 2006. Distributors can also qualify for free worldwide trips to amazing locations and other promotions.

You may ask this all sounds too good to be true!

What is the catch? Well there is a catch, you have to work. We have worked for the past 12 years but now could easily stop tomorrow but we just love helping others succeed and also the feeling we get when people phone to say thank you for introducing the product to them as it has changed their quality of life beyond anything they expected.

We know we cannot do justice to our business or the industry in such a short editorial so we invite anyone who is Honest and Ethical and who

are willing to put some effort into their own future to contact us for a personal overview. The company run fantastic incentives and we add to that by offering people we work with an additional incentive of a 2 week free holiday in our private hotel in Cape Town (purchased because of our involvement with Forever) check it out www.palmhouse.co.za It's FREE to find out more and you may end up having the time of your life.
